It was of pasteboard and similar to the ordinary paper ice cream box in appearance and size. When Judge Rosalsky lifted the cover of the box slightly he was startled. What he had seen within caused him to handle the package with the greatest care. He gently lowered the cover as the package rested on the top of the table and ran to the door and called his wife.

to the door and called his wife.

He next ran to the telephone in the hallway of his apartment and called up Police Headquarters, who, in turn, com-municated with the police of the West 125th street station.

#### Warns Wife from Library.

After calling his wife Judge Rosalsky told her that he had seen what looked to him like a bomb in the box and warned her not to enter the library until Judge Rosalsky had gone to the telethe police had examined the package. The judge, his wife and the negro maid, from a newspaper, which wanted to who were the only persons in the apartment, remained at the further end of the apartment house, awaiting the arrival of the police.

When the call reached the 125th street police station that an attempt had been made to blow up Judge Rosalsky at his home every available man was rushed to the Hendrick Hudson. Acting Captain Tunney, in charge of the Harlem detective bureau, with Detectives Morrell Flynn and Connors and half a dozen pa trolmen in uniform, reached the apart

ment house soon after receiving the call. They were shown immediately to Judge Rosalsky's apartment, No. 6A, on the sixth floor, facing partly on Riverside Drive and partly on 111th street. They were met at the door by the judge himself, who was laboring under great excitement, and spread his arms at full length, as though to block their passage.

"Gentlemen," said the judge, "are you all acquainted with dangerous explosives -with bombs?" The small squadron of police all an-

swered, as with one voice, "No!" and Judge Rosalsky then warned them not to enter the library until he had called up the Bureau of Combustibles. "I have had great experience in exam-

ining high and dangerous explosives during my term as prosecutor, gentlemen. I believe that this package is of such a character," said the judge. While the detectives and patrolmen

went to the telephone and called up the Bureau of Combustibles, telling them the nature of the package he had received. He then returned to the waiting group of men in the hallway and awaited the arrival of an inspector from the bureau.

## Told Judge to Stay Outside.

Owen Egan appeared soon afterward and was shown into the Rosalsky apartments. He shook hands warmly with Judge Rosalsky, with whom he has been on terms of personal friendship for years, and learned from him the circumstances surrounding the receiving of the mysterious package. He then went directly to the library, first warning Judge Rosalsky to remain outside.

Although warned to keep out of the library, where the bomb was lying on the table, Judge Rosalsky and the group of men in the hall approached to the worked over the package.

The girl was Ella C. Nichols, of No. 2 emsterdam avenue, employed as cashier by the Covering and Supply Company at No. 232 West street. It was said there by Charles Leitz, the proprietor that the girl usually got \$500 each Saturday noon out of the bank, but yester viously got the rest himself.

At Headquarters Miss Nichols prompt identified one of the four men taken there as the one who had snatched her bag. The police said he gave his name as Raphael Debiase, alias "Whitey," liv ing at No. 169 Mott street. He and Frank Santo, of No. 66 Catharine street, whom the police say jostled the girl and helped "Whitey" get away, were held as principals. A third man, who said he vas Mario Mandraccka, of No. 95 Elizabeth street, was also held as an accessory, the police saying he blocked them as they rushed to get "Whitey." A fourth man was arrested and gave his name as John Jones, no home, but the police said later that he was picked up in the scramble by mistake. He was held as a witness, as he said he saw the hold-up, and identified "Whitey" as the man who had grabbed the bag.

The police said in this capture they had cleaned up a gang that had been committing many crimes on the East Side lately. They had a string of victims of previous attacks at Headquarters, and said that several of them identified some one and others another of the three prisoners as men who had held them up. The police also said that all three men had prison records against them. They will be arraigned this morning in the Tombs court. There were eight detectives in the troop of

Together the two physicians tried artificial respiration to bring back life in the woman's body, but though it was evident that she had been dead for only a few minutes, they found their efforts were without success. After an hour's work they turned to Mr. Lorillard and told him that it was useless to go further.

Coroner Feinberg was then informed of the woman's death. He made an examination, and said that there was no doubt that Mrs. Lorillard had committed suicide, but that he was unable to assign a definite cause.
